

Join us / **Civil Designer**

McVeigh

McVeigh Consultants is an integrated architectural and engineering firm providing design and project management services for urban development, building and infrastructure projects.

We are typically appointed as lead consultants or project managers on our client's projects. Information and design decisions flow smoothly, no frustrating delays or re-work due to outside influences, just work with your fellow team members to resolve all design issues.

We use the latest design and modelling software including 12D, AutoCAD and PC Drain to produce our documents and designs.

Our core values are simple, our people enjoy their work, work as teams on great projects for good clients and add value to their own lives, our client's projects and our business.

We currently have an opportunity for a Civil Designer to join our team.

You will report to the lead Civil Engineer with responsibilities which will include leading and completing civil engineering designs and drawings for the built environment, including a wide range of development types such as residential, commercial, education, retail and industrial sectors.

You will help manage standards and design resources and will have the opportunity to train and mentor bright young members of our team as we grow.

Must haves:

- Strong 12D skills**
- 4-5 years experience**
- Familiarity with SEQ Local Authority standards**

Building hydraulics experience will also be very highly regarded.

When you join our team you will enjoy working in a bright, modern office with an great team. You will enjoy a close working relationship with your team leader and will be challenged to attain professional and personal growth.

You will be paid well for your contribution to our activities and will receive a significant training allowance in addition to your salary package.

Skills and experience are important, but a fit between individuals and our organisation is our No.1 selection criteria.

If this sounds like you, please contact us immediately!
